2. Background

- 2.1 The Footwear Examination Programme is designed to equip Learners with the requisite skills and underpinning knowledge to enable them to effectively carry out the roles of Footwear Officer and Footwear Specialist. This programme is part of the wider National Policing Curriculum (Category 5 – Conducting Investigations).
- 2.2 The programme consists of three stages. These three stages are designed to be run as standalone courses, allowing progression from initial level through to the Footwear Specialist (reporting officer) level where the officer is required to prepare and give expert

evidence of opinion in a court. Successful completion of each level is a pre-requisite of undertaking the next level. Progression through the levels is subject to local progression processes.

- 2.2.1 Stage 1 (Coding and Intelligence) – enables Learners to receive and handle footwear evidence submitted to the footwear unit safely and effectively, understand how footwear evidence is formed and recovered, and how to assess and code footwear, prints and marks for inclusion on various databases. They are also introduced to the intelligence use of footwear.
- 2.2.2 Stage 2 (Screening) – this builds on the knowledge and skills of practitioners enabling them to make decisions on whether a comparison is suitable for further expert examination.
- 2.2.3 Stage 3 (Interpretation and Reporting) - prepares Learners for interpreting and reporting their findings in evidential reports. Further post-requisite learning is available for those Learners who are required to give evaluative evidence in court.
